HTML, CSS, PHP, JavaScript, jQuery,
Node.js, Express.js, React.js, REST
APIs, Python (Basic)

Database Management

MySQL, PostgreSQL

CMS & Website Development

WordPress (custom websites from
scratch, theme/plugin
customization)

Tools & Platforms

Git & GitHub, VS Code, Postman,
NPM

Other Skills

Responsive Design, Frontend &
Backend Integration, UI/UX Basics,
API Integration

PROJECTS

Apparel Industry System – Designed and developed a web-based solution to streamline core operations like inventory management, order processing, and supply chain tracking. Integrated features such as product catalog management, real-time stock updates, and automated order workflows enhance efficiency. HTML, CSS, JavaScript, jQuery, Bootstrap, PHP, and MySQL.
